**Subject:** RE: Exide Site

Hi Gene

Here's what we understand folks are interested in discussing:

Topics or areas of interest

- Interior lead assessment and clearance process
- Public release of lead levels on each property
- Lead based paint stabilization
- Confirmatory sampling after soil remediation

We will have our R9 lead cleanup experts on the call and will follow any R7 thoughts on these topics with a discussion of

Region 9's work in the area.

Thanks,

Take care  
John

John Lyons

Acting Assistant Director

California Site Cleanup and Enforcement Branch

Superfund Division, Region 9

**Subject:** Exide Site

John,

Just wanted to check-in regarding our continued participation in the calls on the Exide site and R7's experience at Omaha.

We have been asked by your Pub Affairs office to participate in another call.

Hope all is going well!

Gene Gunn
